**TRUEHOPE EMPOWERPLUS ADVANCED** is a unique and safe combination of 36 nutrients designed to provide nutritional support for the central nervous system.*

Due to its overwhelmingly positive results, Truehope’s EMPowerplus™ formulation is the most studied micronutrient in the world. While so many multi-vitamin and mineral products have good ingredients, they are formulated in a way that does not allow their contents to absorb into the bloodstream.

**TRUEHOPE EMPOWERPLUS METHYLATED ADVANCED** is our original and unique formulation of 36 nutrients, only differing in using the methylated forms of two vitamins, B12 and folate.

We created this formula for those whose bodies cannot methylate B vitamins as most can. Individuals that suffer with the rare MTHFR gene expression will benefit most from this product.

**TRUEHOPE EMPOWERPLUS CLASSIC** is the original combination of 36 nutrients designed to provide nutritional support for the central nervous system. The classic formulation is only available in tablet form at this time.

**TRUEHOPE EMPOWERPLUS POWDER** is the same combination of 36 nutrients available in tablet and capsule form to provide nutritional support for the central nervous system. It is in powder form for anyone struggling with swallowing capsules or tablets.

With two great flavours—**MANDARIN ORANGE** OR **BERRIES & BANANA**—EMPowerplus powders are a great additive to smoothies, yogurt, favourite juice, or even just a glass of cold water.
